## MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited interim consolidated financial statements of Guyana Goldfields Inc. (an exploration stage entity) were prepared by management in accordance with Canadian generally accepted accounting principles. The most significant of these accounting principles have been set out in the October 31, 2008 audited consolidated financial statements. Only changes in accounting policies have been disclosed in these unaudited interim consolidated financial statements. Management acknowledges responsibility for the preparation and presentation of the unaudited interim consolidated financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances.

Management has established systems of internal control over the financial reporting process that are designed to provide reasonable assurance that relevant and reliable financial information is produced.

The Board of Directors is responsible for reviewing and approving the unaudited interim consolidated financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited interim consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited interim consolidated financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

/s/ J. Patrick Sheridan  
Chief Executive Officer

/s/ Carmelo Marrelli  
Chief Financial Officer

Toronto, Canada  
September 10, 2009

## NOTICE TO READER

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the interim financial statements have not been reviewed by an auditor.

The accompanying unaudited interim consolidated financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these interim consolidated financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

(An exploration stage entity)

## Notes to Interim Consolidated Financial Statements

Three and Nine Months Ended July 31, 2009

(Expressed in Canadian Dollars)

(Unaudited)

---

### 1. Nature of operations

Guyana Goldfields Inc. (the "Company" or "GGI") was incorporated under the name Chiboug Copper Company Limited pursuant to the Quebec Mining Companies Act on January 24, 1953. On January 24, 1995, the Company changed its name to Guyana Goldfields Inc. During 2005, the Company continued under the Canada Business Corporations Act. The Company is an exploration stage entity engaged in the acquisition, exploration, evaluation and development of principally gold resource properties in Guyana.

The Company is in the process of determining whether its mineral properties contain reserves that are economically recoverable. The recovery of amounts capitalized for mineral exploration properties in the consolidated balance sheets is dependant upon the existence of economically recoverable reserves, the ability of the Company to arrange appropriate financing to complete the development of the properties and upon future profitable production or proceeds from their disposition.

### 2. Basis of presentation and new accounting policies

The unaudited interim consolidated financial statements have been prepared by the Company in accordance with Canadian generally accepted accounting principles ("GAAP"). The preparation of the unaudited interim consolidated financial statements is based on accounting policies and practices consistent with those used in the preparation of the audited annual consolidated financial statements except as noted below. The accompanying unaudited interim consolidated financial statements should be read in conjunction with the notes to the Company's audited consolidated financial statements for the year ended October 31, 2008, since they do not contain all disclosures required by GAAP for annual financial statements. These unaudited interim consolidated financial statements reflect all normal and recurring adjustments that are, in the opinion of management, necessary for a fair presentation of the respective interim periods presented.

Effective November 1, 2008, the Company adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants ("CICA"):

#### *Goodwill and Intangible Assets*

Effective November 1, 2008, the Company adopted CICA section 3064 "Goodwill and Intangible Assets", which replaced CICA Handbook sections 3062, "Goodwill and Other Intangible Assets" and 3450, "Research and Development Costs", as well as EIC-27, "Revenues and Expenditures During the Pre-operating Period", and part of Accounting Guideline 11, "Enterprises in the development stage". Under previous Canadian standards, a greater number of items were recognized as assets than are recognized under International Financial Reporting Standards ("IFRS"). The provisions relating to the definition and initial recognition of intangible assets reduce the differences with IFRS in the accounting for intangible assets. The objectives of CICA section 3064 are: 1) to reinforce the principle-based approach to the recognition of assets; 2) to establish the criteria for asset recognition and; 3) to clarify the application of the concept of matching revenues and expenses such that the current practice of recognizing assets that do not meet the recognition criteria is eliminated. The new standard also provides guidance for the recognition of internally developed intangible assets (including research and development activities), ensuring consistent treatment of all intangible assets. The portions in the new standard relating to goodwill remain unchanged. The adoption of this standard had no impact on the Company's presentation of its financial position or results of operations for the three and nine months ended July 31, 2009.

# GUYANA GOLDFIELDS INC.

(An exploration stage entity)

## Notes to Interim Consolidated Financial Statements

Three and Nine Months Ended July 31, 2009

(Expressed in Canadian Dollars)

(Unaudited)

---

### 2. Basis of presentation and new accounting policies (continued)

#### *Amendments to Section 1400 – General Standards of Financial Statement Presentation*

In June 2007, the CICA amended Handbook Section 1400, "Going Concern", to include additional requirements to assess and disclose an entity's ability to continue as a going concern. Section 1400 is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2008. The adoption of this standard had no impact on the Company's presentation of its financial position or results of operations for the three and nine months ended July 31, 2009.

#### *Credit Risk and the Fair Value of Financial Assets and Financial Liabilities*

In January 2009, the Emerging Issues Committee of the CICA issued EIC-173, "Credit Risk and the Fair Value of Financial Assets and Financial Liabilities", which applies to interim and annual financial statements for periods ending on or after January 20, 2009. The adoption of this standard had no impact on the Company's presentation of its financial position or results of operations for the three and nine months ended July 31, 2009.

#### *Mining Exploration Costs*

On March 27, 2009, the Emerging Issues Committee of the CICA approved an abstract EIC-174, "Mining Exploration Costs", which provides guidance on capitalization of exploration costs related to mining properties in particular and on impairment of long-lived assets in general. The Company has applied this new abstract for the three and nine months ended July 31, 2009, and there was no significant impact on its consolidated financial statements as a result.

#### *Recent accounting pronouncements*

In January 2006, the CICA's Accounting Standards Board ("AcSB") formally adopted the strategy of replacing Canadian GAAP with IFRS for Canadian enterprises with public accountability. On February 13, 2008, the AcSB confirmed that the use of IFRS would be required in 2011 for publicly accountable profit-oriented enterprises. For these entities, IFRS will be required for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The Company will be required to have prepared, in time for its first quarter of fiscal 2012 filing, comparative financial statements in accordance with IFRS for the three months ended January 31, 2011. While the Company has begun assessing the impact of the adoption of IFRS on its consolidated financial statements, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

# GUYANA GOLDFIELDS INC.

(An exploration stage entity)

## Notes to Interim Consolidated Financial Statements

Three and Nine Months Ended July 31, 2009

(Expressed in Canadian Dollars)

(Unaudited)

---

### 2. Basis of presentation and new accounting policies (continued)

#### *Recent accounting pronouncements (continued)*

The CICA issued three new accounting standards in January 2009: Section 1582, "Business Combinations", Section 1601, "Consolidated Financial Statements" and Section 1602, "Non-Controlling Interests". These new standards will be effective for fiscal years beginning on or after January 1, 2011. Section 1582 replaces section 1581 and establishes standards for the accounting for a business combination. It provides the Canadian equivalent to IFRS 3 - Business Combinations. Sections 1601 and 1602 together replace section 1600, "Consolidated Financial Statements". Section 1601 establishes standards for the preparation of consolidated financial statements. Section 1602 establishes standards for accounting for a non-controlling interest in a subsidiary in consolidated financial statements subsequent to a business combination. It is equivalent to the corresponding provisions of IFRS IAS 27 - Consolidated and Separate Financial Statements. The Company is in the process of evaluating the requirements of the new standards.

### 3. Business acquisition

On January 28, 2009, GGI completed the acquisition of Aranka Gold Inc. ("Aranka") pursuant to a Plan of Arrangement (the "Arrangement") completed under the Business Corporations Act (Ontario).

Pursuant to the Arrangement, the former shareholders of Aranka received an aggregate of 7,796,910 common shares of GGI in exchange for their Aranka common shares at an exchange basis of one common share of GGI for every 3.25 common shares of Aranka. In addition, all of the outstanding 1,700,000 stock options of Aranka were cancelled and the stock option plan was terminated. The common shares of GGI acquired by the former shareholders of Aranka had a deemed value of \$2.30 per GGI share.

This acquisition has been treated as a business combination using the purchase method of accounting. Under this method, Aranka's earnings are included in the consolidated Company's earnings from the date of acquisition. The purchase cost was allocated to the underlying assets acquired based on their fair values at the date of acquisition. The purchase consideration of \$18,249,102 exceeded the carrying value of the assets acquired by \$9,980,228, which was applied to increase the carrying value of the Aranka Properties. The excess amount will not increase the carrying value of the underlying assets for tax purposes, resulting in a temporary difference between accounting and tax values. The resulting estimated future tax liability of \$5,373,969 associated with the temporary difference was applied to increase the carrying value of the Aranka Properties. Details of the acquisition are summarized below:

#### **Purchase price**

7,796,910 common shares issued in exchange for

Less: current liabilities	(51,530)
Less: future income tax liability	(5,373,969)
	<hr/> \$ 18,249,102

### 4. Capital management

The Company defines capital that it manages as its shareholders equity. When managing capital, the Company's objective is to ensure the entity continues as a going concern as well as to achieve optimal returns to shareholders and benefits for other stakeholders. Management adjusts the capital structure as necessary in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management team to sustain the future development of the business. As at July 31, 2009, total shareholders' equity (managed capital) was \$88,617,488 (October 31, 2008 - \$55,439,280).

The properties in which the Company currently has an interest are in the exploration or feasibility stage. As such the Company is dependent on external financing to fund its activities. In order to carry out its planned exploration programs and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed.

In light of the above, the Company will continue to assess new properties and seek to acquire an interest in additional properties if it believes there is sufficient potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is appropriate. There were no changes in the Company's approach to capital management during the three and nine months ended July 31, 2009.

The Company is not subject to any externally imposed capital requirements. The Company believes that its current capital resources will be sufficient to discharge its liabilities as at July 31, 2009.

### 5. Financial instruments

The Company's activities expose it to a variety of financial risks: liquidity risk, market risk (including interest rate, foreign exchange rate and price risk) and credit risk.

Risk management is carried out by the Company's management team with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

(a) Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company's liquidity and operating results may be adversely affected if its access to the capital market is hindered, whether as a result of a downturn in stock market conditions generally or as a result of conditions specific to the Company. The Company generates cash flow primarily from its financing activities and interest income earned on its cash and cash equivalents and short-term investments. The Company has cash and cash equivalents of \$9,861,252 (October 31, 2008 - \$13,948,967) to settle current liabilities of \$1,345,474 (October 31, 2008 - \$2,179,476). The Company regularly evaluates its cash position to ensure preservation and security of capital as well as maintenance of liquidity.

All of the Company's financial liabilities are subject to normal trade terms.

(b) Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly fluctuate due to changes in market prices. The value of the financial instruments can be affected by changes in interest rates, foreign exchange rates, and equity prices. In the normal course of business, the Company is exposed to market risks as a result of its investments in publicly traded companies. During periods of significant broader market volatility or volatility experienced by the resource/commodity markets, the value of the Company's investment portfolio can be vulnerable to market fluctuations. Sensitivity to a plus or minus 10% change in the bid price of the Company's investments in public companies with all other variables held constant as at July 31, 2009, would affect net loss and comprehensive loss by approximately \$94,000.

Currency risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will fluctuate because of changes in foreign exchange rates. The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. The Company funds certain operations, exploration and administrative expenses in Guyana on a cash call basis using US dollars converted from its Canadian dollar bank accounts held in Canada. The Company maintains US dollar bank accounts in Canada, Barbados and Guyana and Guyanese bank accounts in Guyana. The Company is subject to gains and losses due to fluctuations in the US and Guyanese dollar against the Canadian dollar. Sensitivity to a plus or minus 10% change in all foreign currencies (Guyanese and US dollars) against the Canadian dollar with all other variables held constant as at July 31, 2009, would affect net loss and comprehensive loss by approximately \$32,000.

## Notes to Interim Consolidated Financial Statements

Three and Nine Months Ended July 31, 2009

(Expressed in Canadian Dollars)

(Unaudited)

### 5. Financial instruments (continued)

(b) (continued) Interest rate risk is the impact that changes in interest rates could have on the Company's earnings and assets. In the normal course of business, the Company is exposed to interest rate fluctuations as a result of cash equivalents being invested in interest-bearing instruments. Interest rate risk is minimal as the Company's interest-bearing instruments have fixed interest rates.

(c) Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and cash equivalents, restricted cash and accounts receivable. The Company has no significant concentration of credit risk arising from operations. Cash and cash equivalents and restricted cash are held with reputable financial institutions, from which management believes the risk of loss to be minimal. Accounts receivable include accrued interest and deposits held with consultants and other service providers; \$490,614 represents the maximum credit exposure (October 31, 2008 - \$319,852). Accounts receivable are in good standing as of July 31, 2009. Management believes that the credit risk concentration with respect to accounts receivable is minimal.

(d) Fair value

As at July 31, 2009, the carrying and fair value amounts of the Company's financial instruments were approximately equivalent.

### 6. Short-term investments

Short-term investments are composed of:

	July 31, 2009	October 31, 2008
Short-term guaranteed deposits, expiry date greater than 3 months	\$ 17,531,000	\$ 1,341,211
Marketable securities	935,977	690,730
Total	\$ 18,466,977	\$ 2,031,941

Marketable securities consisted of the following as at July 31, 2009:

Security name	Security description	Cost	Fair value
Duncan Park Holdings Corp.	32,500 common shares	\$ 27,855	\$ 487
Gold Port Resources Ltd.	4,046,000 common shares	1,683,290	262,990
Northern Platinum Ltd.	600,000 common shares	361,400	150,000
Temex Resources Corp.	1,200,000 common shares	235,800	330,000
White Pine Resources Inc.	500,000 common shares	900,000	192,500
		\$ 3,208,345	\$ 935,977

### 6. Short-term investments (continued)

Marketable securities consisted of the following as at October 31, 2008:

Security name	Security description	Cost	Fair value
Duncan Park Holdings Corp.	32,500 common shares	\$ 27,855	\$ 650
Gold Port Resources Ltd.	4,046,000 common shares	1,683,290	223,080
Northern Platinum Ltd.	600,000 common shares	361,400	102,000
Temex Resources Corp.	1,200,000 common shares	235,800	90,000
White Pine Resources Inc.	500,000 common shares	900,000	275,000
		\$ 3,208,345	\$ 690,730

The fair market value of the Company's investment in Guyana Precious Metals Inc. (formerly Coronation Minerals Inc.) ("Guyana Precious") as at July 31, 2009, was \$1,796,918 (October 31, 2008 - \$484,540). (Note 7)

Short-term investments have been designated as held-for-trading and consequently, unrealized gains and losses are reported in operations. They are recorded at fair value using the last bid price.

### 7. Investment in Guyana Precious Metals Inc.

(a) On November 6, 2008, Guyana Precious acquired the remaining 50% interest of the Coppermine River Project. Guyana Precious issued 5,000,000 common shares to the Company. The Company valued the common shares received from Guyana Precious at \$200,000 and recorded a gain of \$200,000 on the disposition of the remaining 50% interest of the Coppermine River Project.

Along with previously owned 12,113,500 common shares, the Company holds 17,113,500 common shares of Guyana Precious representing approximately a 16% interest in the issued and outstanding common shares of Guyana Precious.

(b) The fair market value of the Company's investment in Guyana Precious as at July 31, 2009, is \$1,796,918 (October 31, 2008 - \$484,540).

### 7. Investment in Guyana Precious Metals Inc. (continued)

(c) A summary of the status of the Company's investment in Guyana Precious as at July 31, 2009, and changes during the periods then ended is presented below:

	July 31, 2009	October 31, 2008
Equity accounted investment - carrying value, beginning of period	\$ 484,540	\$ -
Conversion of investment in Guyana Precious to an equity accounted investment	-	4,603,130
Acquisition of equity accounted investment (Note 7(a))	200,000	-
Write-down of Guyana Precious	-	(3,354,633)
Share of loss recognized	(684,540)	(763,957)
Equity accounted investment - carrying value, end of period	\$ -	\$ 484,540

In accordance with EIC-8, "Recognition of an Equity Accounted Investee's Losses in Excess of the Investment", the Company has not recorded its portion of loss in the amount of \$591,475 from Guyana Precious on the basis that GGI has not provided and will not provide financial support to Guyana Precious or guarantee obligations on behalf of Guyana Precious and it is unlikely that Guyana Precious will reach profitability. If Guyana Precious reaches profitability, the Company will include its share of those profits only after its share of the profits equals its share of the losses not recognized.

### 9. Mineral exploration properties

	Balance October 31, 2008	Additions	Write-down	Balance July 31, 2009
<b>Guyana, South America</b>				
Peters Mine Property	\$ 1	\$ -	\$ -	\$ 1
Aurora Mine Property (d)	36,781,690	6,672,733	-	43,454,423
Aranka Properties (c)	3,689,496	18,162,553	-	21,852,049
	40,471,187	24,835,286	-	65,306,473
<b>Ontario, Canada</b>				
Langis Mine (b)	-	1	-	1
	\$ 40,471,187	\$24,835,287	\$ -	\$ 65,306,474

On a quarterly basis, management of the Company reviews mineral exploration properties to ensure deferred expenditures include only costs and projects that are eligible for capitalization. Specific changes to mineral exploration properties that occurred from November 1, 2008, to July 31, 2009, are as follows:

#### (a) Coppermine River Property

On November 6, 2008, Guyana Precious acquired the remaining 50% interest of the Coppermine River Project. Guyana Precious issued 5,000,000 common shares to the Company. (Note 7)

#### (b) Langis Mine

On January 28, 2009, the Company acquired a 100% interest in the Langis Mine as a result of its acquisition of Aranka. Total Langis Mine resource assets acquired by the Company during the period have an ascribed value of \$1. (Note 3)

The Company owns a 100% interest in mineral rights to 25 claim units covering 388.87 hectares, and 132.33 hectares of surface rights in Casey and Harris Townships, Larder Lake Mining Division, Ontario. Eighteen of the claim units are contiguous and host the past-producing Langis Mine.

#### (c) Aranka Properties

On January 28, 2009, the Company acquired the remaining 50% interest in the Aranka Properties as a result of its acquisition of Aranka. The Company now has a total interest of 100% in the Aranka Properties. Total Aranka Properties acquired by the Company during the period have an ascribed value of \$17,510,102. (Note 3)

### 9. Mineral exploration properties (continued)

#### (d) Aurora Mine Property

On March 11, 2009, GGI announced the award of the definitive feasibility study for the Aurora Mine Property to AMEC Americas Limited. The definitive feasibility study will be completed in two phases: Phase 1, which runs from March to August 2009, will conclude with a Preliminary Economic Assessment NI43-101 report, and Phase 2, which will run from August 2009 to February 2010, will conclude with the issue of the NI43-101 report and definitive feasibility study. The estimated cost for the study is \$4,000,000.

### 10. Share capital

The Company is authorized to issue an unlimited number of common shares. The issued and outstanding common shares consist of the following:

	Number of Shares	Amount
Balance, October 31, 2008	51,105,143	\$ 64,466,917
Shares issued to acquire Aranka (Note 3)	7,796,910	17,932,893
Shares issued for non-brokered private placement (ii)	6,200,000	17,050,000
Value allocated to warrants (ii)	-	(3,373,214)
Repayment of share purchase loans (iii)	-	295,000
Issued on exercise of options	79,500	167,440
Value of options exercised	-	132,813
Share issue expenses (ii)	-	(163,002)
Balance, July 31, 2009	65,181,553	\$ 96,508,847

(i) The Company's amended and restated shareholder rights plan (the "Rights Plan") was approved and confirmed by the shareholders of the Company on April 7, 2009. Such rights plan contains certain amended definitions, which GGI adopted in order to bring such Rights Plan in line with current Canadian corporate governance best practices by imposing greater limitations on the board's discretion to interpret and administer the plan, and ensuring fair and equal treatment of shareholders.

(Expressed in Canadian Dollars)

(Unaudited)

### 10. Share capital (continued)

(ii) The Company completed a non brokered private placement (the "Offering") in two tranches on June 3, 2009, and June 9, 2009, pursuant to which it issued an aggregate of 6,200,000 units at a price of \$2.75 per unit to raise aggregate gross proceeds of \$17,050,000. Each unit consisted of one common share of the Company and one half of one common share purchase warrant, each whole such warrant (a "Warrant") entitling the holder to acquire one additional common share of the Company at a price of \$4.00 for a period of three years from closing. If, however, following June 3, 2010, the closing price of the Company's common shares exceeds \$6.00 for 30 consecutive trading days, then the warrant term shall be automatically reduced and the warrants will expire on the date that is 60 days following either the issuance of a press release or the provision to the holders of the warrants of written notice announcing the reduced warrant term, all in accordance with the terms of the certificates representing the warrants. From the total compensation received, \$3,373,214 was assigned to warrants, according to the estimated fair value. Share issue expenses for the non brokered private placement amounted to \$203,391, of which \$40,389 was assigned to warrants and \$163,002 to share capital.

The securities issued in connection with the first tranche of the non brokered private placement (4,472,727 units) have a hold period expiring on October 4, 2009. The securities issued in connection with the second tranche of the non brokered private placement (1,727,273 units) have a hold period expiring on October 10, 2009.

(iii) The Company loaned two consultants \$295,000 to exercise stock options of the Company. The loans have been recorded as a reduction of share capital. The loans were unsecured, non-interest bearing and due on demand. As of June 10, 2009, the share purchase loans of \$295,000 from the two consultants have been satisfied in full.

### 11. Warrants

A summary of the status of the Company's warrants outstanding as at July 31, 2009, and changes during the period then ended is presented below:

	Number of Warrants	Allocated Value	Average Exercise Price
Balance, October 31, 2008	1,730,000	\$ 2,694,890	\$ 4.40
Granted (Note 10(ii))	3,099,998	3,373,214	4.00
Share issue expenses (Note 10(ii))	-	(40,389)	-
Balance, July 31, 2009	4,829,998	\$ 6,027,715	\$ 4.14

(Expressed in Canadian Dollars)

(Unaudited)

### 11. Warrants (continued)

The following are the warrants outstanding as at July 31, 2009:

Number of Warrants	Fair Value	Exercise Price	Expiry Date
1,730,000	\$ 2,694,890	\$ 4.40	March 8, 2011
2,236,363 <sup>(1)</sup>	2,422,099	4.00	June 3, 2012
863,635 <sup>(1)</sup>	951,115	4.00	June 9, 2012
-	(40,389)	-	Share issue expenses
4,829,998	\$ 6,027,715	\$ 4.14	

<sup>(1)</sup> Subsequent to June 3, 2010, if the closing price of the Company's common shares exceeds \$6.00 for 30 consecutive trading days, then the warrant term will be automatically reduced and the warrants will expire on the date that is 60 days following either the issuance of a press release or the provision to the holders of the warrants of written notice announcing the reduced warrant term, all in accordance with the terms of the certificates representing the warrants.

### 12. Stock options

The Company's stock option plan was approved by the shareholders of the Company on April 7, 2009, for the purpose of attracting, retaining and motivating service providers by providing them an opportunity, through share options, to acquire a proprietary interest in the Company and benefit from its growth. The number of stock options that may be granted under the plan is limited to not more than 10% of the issued common shares of the Company at the time of the stock option grant. The exercise price of stock options granted in accordance with the plan will be not less than the closing price of the common shares on the trading day immediately prior to the effective date of grant.

A summary of the status of the Company's stock options outstanding as at July 31, 2009, and changes during the period then ended is presented below:

	Number of Options	Allocated Value of Vested Options	Weighted Average Exercise Price
Balance, October 31, 2008	3,766,450	\$ 11,548,313	\$ 4.47

August 26, 2013	165,000	\$ 3.18	4.07	41,250	\$ 3.18
February 27, 2014 (i)	750,000	\$ 2.69	4.57	-	\$ -
April 8, 2014 (ii)	650,000	\$ 3.03	4.69	162,500	\$ 3.03
	5,904,950		2.48	3,771,200	

(i) On February 27, 2009, the Company granted 750,000 options to acquire 750,000 shares of the Company at a price of \$2.69 per share. The fair value of these options at the date of the grant was estimated using the Black Scholes valuation model with the following assumptions: a five year expected term; 86% volatility; risk-free interest rate of 2.10% per annum; and a dividend rate of 0%. The fair value assigned to these options was \$1,371,000, which is expensed to the statement of operations and comprehensive loss with a corresponding amount allocated to contributed surplus as the options are vested. Vesting of these options is 33.33% after each of 6, 12 and 18 months.

(ii) On April 8, 2009, the Company granted 650,000 options to acquire 650,000 shares of the Company at a price of \$3.03 per share. The fair value of these options at the date of the grant was estimated using the Black Scholes valuation model with the following assumptions: a five year expected term; 85% volatility; risk-free interest rate of 1.86% per annum; and a dividend rate of 0%. The fair value assigned to these options was \$1,331,200, which is expensed to the statement of operations and comprehensive loss with a corresponding amount allocated to contributed surplus as the options are vested. Vesting of these options is 25% immediately and 25% after each of 6, 12 and 18 months.

### 12. Stock options (continued)

(iii) On April 9, 2009, the Company granted 200,000 options to acquire 200,000 shares of the Company at a price of \$3.09 per share. The fair value of these options at the date of the grant was estimated using the Black Scholes valuation model with the following assumptions: a three year expected term; 80% volatility; risk-free interest rate of 1.38% per annum; and a dividend rate of 0%. The fair value assigned to these options was \$324,000, which will be expensed to the statement of operations and comprehensive loss with a corresponding amount allocated to contributed surplus as the options are vested. Vesting of these options is 25% immediately and 25% after each of 6, 12 and 18 months.

(iv) On May 1, 2009, the Company granted 740,000 options to acquire 740,000 shares of the Company at a price of \$2.75 per share. The fair value of these options at the date of the grant was estimated using the Black Scholes valuation model with the following assumptions: a three year expected term; 78% volatility; risk-free interest rate of 1.40% per annum; and a dividend rate of 0%. The fair value assigned to these options was \$1,044,140, which will be expensed to the statement of operations and comprehensive loss with a corresponding amount allocated to contributed surplus as the options are vested. Vesting of these options is 25% immediately and 25% after each of 6, 12 and 18 months. On June 29, 2009, 10,000 options were exercised for cash proceeds of \$27,500.

(v) On June 23, 2009, the Company granted 60,000 options to acquire 60,000 shares of the Company at a price of \$3.50 per share. The fair value of these options at the date of the grant was estimated using the Black Scholes valuation model with the following assumptions: a three year expected term; 77% volatility; risk-free interest rate of 1.85% per annum; and a dividend rate of 0%. The fair value assigned to these options was \$106,440, which will be expensed to the statement of operations and comprehensive loss with a corresponding amount allocated to contributed surplus as the options are vested. Vesting of these options is 25% immediately and 25% after each of 6, 12 and 18 months.

(vi) On July 13, 2009, the Company granted 30,000 options to acquire 30,000 shares of the Company at a price of \$3.37 per share. The fair value of these options at the date of the grant was estimated using the Black Scholes valuation model with the following assumptions: a three year expected term; 77% volatility; risk-free interest rate of 1.80% per annum; and a dividend rate of 0%. The fair value assigned to these options was \$51,150, which will be expensed to the statement of operations and comprehensive loss with a corresponding amount allocated to contributed surplus as the options are vested. Vesting of these options is 25% immediately and 25% after each of 6, 12 and 18 months.

(vii) As a result, the weighted average fair value of the total options granted during the nine months ended July 31, 2009, on the grant date was \$1.74.

### 13. Related party transactions (continued)

(c) Included in accounts receivable is \$nil (October 31, 2008 - \$17,093) owing from Guyana Precious and \$nil (October 31, 2008 - \$29,074) owing from the Chief Executive Officer and former Chief Financial Officer. During the three and nine months ended July 31, 2009, the Company received \$8,858 and \$16,797, respectively, (three and nine months ended July 31, 2008 - \$nil) for rent from Guyana Precious related to a cost sharing arrangement between the companies.

GGI has agreed to provide established logistical and geological support to Guyana Precious. GGI and Guyana Precious have signed an "Area of Influence" agreement that restricts Guyana Precious from participating in property acquisition and development within a defined area of GGI's exploration and development activities in Guyana. In addition, GGI will have a "Right of First Opportunity" to acquire advanced stage properties in which there is a defined resource.

(d) An amount of \$50,000 was advanced to a director by the Company pursuant to a promissory note bearing an interest rate equal to the Royal Bank of Canada prime rate plus 2% and which is due on demand but in any event was due and payable no later than March 1, 2009. The advance has been satisfied in full.

(e) The Chief Executive Officer and Chief Financial Officer of the Company are also officers in the same capacity with Aranka (Note 3).

(f) Claude Lemasson, the President and Chief Operating Officer of the Company, purchased an aggregate of 363,636 units in the recent offering (Note 10(ii)).

All related party transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

### 14. Contingencies

(a) The Company's mining and exploration activities are subject to various government laws and regulations relating to the protection of the environment. These environmental regulations are continually changing and generally becoming more restrictive. As at July 31, 2009, the Company does not believe that there are any significant environmental obligations requiring material capital outlays in the immediate future and anticipates that such obligations will only arise when mine development commences.

(b) In July 2009, a former employee of GGI commenced an action against GGI seeking wrongful dismissal damages resulting from the termination of employment. The Company is contesting the claim. Accordingly, the unaudited interim consolidated financial statements do not include any adjustments that might be required in the final outcome of this litigation.

### 15. Restricted cash

The Company has an outstanding letter of guarantee in the amount of \$188,703 (US\$175,130) (October 31, 2008 - \$nil) that is required under the regulations prescribed by the Guyana Geological and Mines Commission for Prospecting Licences issued to the Company and its subsidiaries.

### 16. Commitments

In order to develop the Aurora Mine Property and Aranka properties, the Company has discretionary exploration expenditures as at July 31, 2009, of approximately \$5.4 million. These obligations are not provided for in the unaudited interim consolidated financial statements.

### 17. Comparatives

Certain comparative figures have been reclassified to conform with current period financial statement presentation.

### 18. Subsequent events

(a) On August 19, 2009, the Company granted 100,000 options to acquire 100,000 shares of the Company at a price of \$4.00 per share. The stock options expire on August 19, 2012, and vest 25,000 immediately, 25,000 on February 19, 2010, and 50,000 on August 19, 2010, provided an extension and re-signing of the contract beyond 12 months has occurred.

(b) On August 25, 2009, the Company granted 275,000 options to acquire 275,000 shares of the Company at a price of \$4.54 per share. The stock options expire on August 25, 2012, and vest 25% immediately, and 25% after each of 6, 12 and 18 months after the date of grant.

### 19. Restatement

The July 31, 2008 unaudited interim consolidated financial statements have been amended and restated to reflect that at July 31, 2008, the Company decreased the accounts receivable and prepaid expenses from \$1,107,289 to \$474,789 by reclassifying (i) \$337,500 to share subscription receivable for the exercise of stock options; and (ii) share purchase loans of \$295,000 to share capital in accordance with EIC 132. As a result, the net correction as at July 31, 2008, is a decrease of \$295,000 in total current assets and total assets and a decrease of \$295,000 in total shareholders' equity and total current liabilities added to total shareholders' equity. The Company has revised the related interim consolidated statement of cash flows for the three and nine months ended July 31, 2008, to include the above corrections. The amended and restated July 31, 2008, unaudited interim consolidated financial statements of GGI were filed on Sedar on December 19, 2008.
